PROFESIONNAL SUMMARY

I'm a Game Design student and a former UX/UI Designer. Proficient in writting Game Design Documents, prototyping game idea fast in Visual Scripting & C++/C# (UE5 / Unity) and conducting playtesting sessions to iterate on player experience.
Dynamic, curious and reactive, I'm able to adapt to the constraints of teamwork, even under pressure and tight deadlines.
Creative and rigorous, I'm able to find innovative solutions quickly and see a project through from conception to completion.
Currently seeking for a junior game designer / game developper role.

TECHNICAL SKILLS

Game Engines : Unreal Engine 5 *(Blueprints, GAS, Level Design, Asset Integration, C++, 3D)*, Unity *(C#, Level Design, Animation, Asset Integration, 2D + 3D)*
